iltainox

Object: Directive 2017/2102/UE of the European Parliament, on the restriction of the use of certain hazardous substances in electrical and electronic equipment.

Dear Customer,

we would like to inform you that according to the provisions of the European **RoHS-Directive 2017/2102/UE** (Restriction of Hazardous Substances) on the restriction of the use of certain hazardous substances, the content of such dangerous substances electrical and electronic equipment must not exceed the limits determined in the a.m. Directive.

In steel products to be used in the production of such equipment a maximum content of **0,1 %** in weight of lead, mercury, chromium VI, PBB (polybrominated biphenyls) and PBDE (polybrominated diphenyl ethers) and **0,01 %** of cadmium in weight is permitted.

Restriction is aimed at ensuring the necessary level of protection to both human health and environment as it will result from choosing safer products and promoting the economic profitability of recycling as well.

For all the foregoing, ILTA INOX S.p.A.

DECLARE

that all materials used and products manufactured and marketed from July 1, 2006 shall comply with the requirements of the Directive 2017/2102/EU issued by the European Parliament (RoHS Directive) in that respect the limits listed above.

We also inform you that **ILTA INOX S.p.A.** is certified **ISO 14001:2004** since 08/02/2005 and **14001:2015** since 21/10/2016 and gives particular attention to these issues.

Yours faithfully

Robecco d'Oglio, 08/01/2024

**Quality, Environment
& Safety Manager**
